Dear Parents/Guardians,

I am delighted to let you know that our long awaited extension will begin on Monday, 18th October. This major extension comprises 27 classrooms including specialist rooms, offices and a Sports Hall. There will also be a range of upgrading works to our present buildings.

The construction period is 15 months. We have advised students of the health and safety issues involved. Furthermore at this juncture there will be no parking in the school or drop off facility inside the school gates as and from October 18th.

Parents of students taking Junior and Leaving Certificate examinations should be advised that construction will cease during the examination period.

Apologies for any inconvenience caused during construction. However, the facilities available for your daughter will be enormously enhanced on completion of the work.

Yours sincerely,

Edward Fynes,
Principal.
